Notice Extraordinary!

WE WOULD NOTIFY the merchants and the public generally in the Western States that the Match Manufactory of R. W. PIERCE & CO., Milwaukee, Wis., is in full and successful operation, notwithstanding the declarations of a match concern in Detroit, Mich., that our establishment had burned down—that R. W. Pierce & Co. had failed—that no more R. W. Pierce's matches would be seen in market, &c. &c. We are well aware that all such assertions will in due time recoil with bad effect upon the party who originated them, and what we wish is, that the public should be set right in the matter. We now have facilities for manufacturing matches as cheap, or cheaper than any other establishment in the West, and as to the quality, we will leave those who have used them for the last thirteen years to be the judges, and will only remark that our business has increased from less than $1000, in 1844, to more than $50,000, in 1856.

All orders for matches promptly filled.

THE DAILY SENTINEL.
RUFUS KING & WM. H. WATSON,
PROPRIETORS,
Under the Name and Firm of Rufus King, & Co.
MILWAUKEE:
Tuesday Morning, March 17.

For Chief Justice of the Supreme Court,
EDWARD V. WHITON.

ELECTION, TUESDAY, APRIL 7.

The Milwaukee and Beloit Railroad.

We are indebted to HORATIO HILL, Esq., President of the Milwaukee and Beloit R. R. Company, for a copy of the first annual report of the Directors, with the reports of the Secretary and Chief Engineer, presented at the recent annual meeting, held in this city on the 4th instant. A map accompanies the report, showing the connections of the road, East and West, and demonstrating, without need of comments, or figures, the very great importance of the route to the business interests of Milwaukee. The Company organized formally about twelve months since, and in May last set their surveying parties at work, under the direction of Mr. D. C. SHEPARD, their capable Chief Engineer. Unusual pains were taken with the preliminary surveys, in order to ensure the selection of the best line. The first division of the road, extending from this city to East Troy, Walworth County, was put under contract on the 17th of October last and is to be completed by the 1st of September next. The second division, extending from East Troy to the point of intersection with the Racine and Mississippi R. R., is designed to be put under contract and completed by the time the Racine road reaches the Mississippi, which it is expected to do within a twelvemonth. The estimated cost of the road, complete and ready for running, is put at $24,000 per mile. If Elkhorn is chosen as the point of junction with the Racine road, the Directors estimate their means for constructing the 43½ miles as follows:

First Mortgage Bonds,	$552,500
Present individual subscriptions,	318,100
Milwaukee City bonds,	181,900
Contractor's subscriptions,	80,000
Estimated increase private subscriptions,	181,900
Total,	$1,232,500

Should Delavan (48½ miles from Milwaukee) be selected as the point of junction, the Directors estimate their means at $1,420,400. In these estimates are included the increased private subscriptions, to the amount of $200,000, which the Directors hope to obtain within the next few weeks. If they succeed in this, they pledge themselves to have the whole road completed, well-equipped and running, within twelve months from this date.

The road starts from the Milwaukee river in the immediate vicinity of the "Straight Cut" and pursues a general South westerly course, with easy grades and but few curves, through a very fine farming country, touching the villages of Prattsburgh, Mukwonago, East Troy, Troy, Elkhorn and Delavan. It has been located with great judgement, and possesses, in its depot grounds and dock front on our river, unequalled facilities for the transaction of its business. Notwithstanding the extreme severity of the past winter, good progress has been made in clearing, grubbing and grading the first division. Of this fact we had ocular evidence last week, having passed over the entire line between our city and Root river. We had not before fairly realized the fact that the Milwaukee & Beloit Rail Road was actually under way, and were both surprised and gratified to find that so much work has already been done. Indeed there is no question that the road can be finished and opened throughout for business, *in a year from now*, if the Directors obtain the small additional subscription ($200,000) they ask for. There should be neither doubt nor delay on this point, and the capitalists, property-owners and business men of this city, if they are as fully alive to their own and the public interests, as we take them to be, will make up *one-half*, at least, of the required amount before another month has expired.

If they have any misgivings as to the value and importance of the road—its value as an investment, and its importance as a thoroughfare of trade and travel—let them spend half an hour in studying the maps in the Company's Office, and tracing out the connections of the Milwaukee and Beloit R. R., and they will be abundantly satisfied. In the first place, this road secures to us *the shortest possible route* between Lake Michigan and the Mississippi river—the distance from Milwaukee to Savannah being only *one hundred and thirty-eight miles*. Secondly, by this route Galena will be brought within 158 and Dubuque within 170 miles of Milwaukee, while they are distant from Chicago, by rail, 171 and 188 miles respectively. Thirdly, this route will restore to Milwaukee a large and profitable trade, which is now—for want of a railway avenue to market—diverted to Chicago. Fourthly, it will bring to us a new and very valuable traffic from North Western Illinois, our market holding out inducements and this road furnishing facilities, superior to any that Chicago can offer. Fifthly, it must engross a very large proportion of the freighting from the East, destined for Southern Wisconsin, Northern Illinois and Iowa—both because Milwaukee is 90 miles nearer to Buffalo, Oswego, Cleveland, &c., by Lake, than Chicago; and because the Milwaukee & Beloit R. R. affords *a shorter route to every point on its line*, this side of the Mississippi, and to *all* points beyond, *than any road leading out of Chicago*. Sixthly, this road will connect at Savannah with a very important road, already under contract, traversing the whole of Iowa and leading directly to Nebraska and Kansas. Lastly, this road, in its magnificent depot grounds and river front in Milwaukee—the latter *nearly half a mile* in extent—in immediate proximity with the "Straight Cut," and therefore always and easily accessible to the largest vessels navigating our Lakes—possesses altogether unrivalled facilities for doing a heavy freight business, which is *the* paying business of Rail Roads.

Here are reasons in abundance why the Milwaukee & Beloit R. R. is to be a first class paying Rail Road, and an enterprize of inappreciable importance to our city. As such it is entitled not only to the good will and best wishes of our people generally, but to the substantial aid and comfort of our "solid men." A subscription of $100,000 to its stock would be a small matter for fifteen or twenty of our wealthy property-holders and well-to-do bankers and merchants, while it would be a very great matter for the Company, enabling them to *put the road through* in one year's time. The sum named ought to be made up in a week. What public-spirited citizen will start the ball and head the list?

We have extended our notice to a somewhat unusual length, but the subject deserves it. We have only space to add that the affairs of the Company have been quietly, prudently and efficiently managed, and that its Directors and Officers are:

Directors—WM. J. WHALING, HORATIO HILL, M. B. MEDBURY, G. D. DOUSMAN, and LESTER SEXTON, of Milwaukee; S. ANDREWS, Mukwonago; E. ELDREKIN, Elkhorn; E. F. MABIE, Delavan; E. H. BALL, East Troy.

President—HORATIO HILL.
Treasurer—S. ANDREWS.
Vice Pres't—E. H. BALL.
Chief Engineer—D. C. SHEPARD.
Secretary—A. C. BABCOCK.

NEW POST OFFICE.—The Post Master General has established a new Post Office in the town of La Prairie, in this county, on the line of the C. St. P. & F. D. L. R. R., and appointed Peter Smith, Esq., Post Master. The name of the new office is Tiffany.—*Janesville Standard.*

Gordon's Double Fire-Fly Card Press—Twenty Thousand Cards an hour!

We have just put in operation in our Job Office, one of Gordon's famous Double Fire Fly Card Presses—one of the most remarkable inventions of the age. It is well worth a visit from anybody who takes an interest in the workings of human ingenuity. We shall have something more to say in regard to it in a few days. Meantime, see the advertisement in our local column to-day.

A New Deal in the Offices.

Col. JOHN WHITE, Collector of this port, returned on Saturday night from his pilgrimage to the political Mecca, Washington. The Colonel is in good health and spirits and quite reconciled to his impending fate, which, he tells us, is inevitable; the Administration having resolved to make a *clean sweep* in the Federal Offices. This is good news for the *outs*, bad news for the *ins*, and worse news for the people. It is certain that the public service must suffer greatly by such sweeping changes, though no doubt it is a wise measure politically. For if the present incumbents of office were all to be retained, how could the zealous patriots, who distinguished themselves in last fall's canvass, be rewarded for their efforts? It is supposed that Mr. SCHOEFFLER, of the *Banner*, will receive the appointment now held by JOHN WHITE, though Mr. CLASON, late of the *News*, is also a candidate for the place.

News from Minesota.

We had the pleasure of a call, yesterday afternoon, from Judge W. F. TOMPKINS, of Janesville, who has been sojourning, for some time past, at St. Paul. The Judge informs us that he left there on Monday the 9th, came down by sleigh to Muscoda, on the M. & M. R. R., and thence home by railroad. He represents the ice in the river as still very firm, the snow in the woods and roads quite deep, and the whole Upper Mississippi Valley looking with impatience for the return of Spring, the opening of navigation and the completion of the M. & M. R. R. to Prairie du Chien.

The Minesota Legislature adjourned *sine die* on Saturday week. Another bill, to remove the capital to St. Peters (a *fac-similie* of the abstracted one) had passed both Houses and been signed by the Governor. The St. Paul people contended, however, that there was a vital defect in the bill, which would defeat the promised removal.

Another case of Lynch Law occurred in our State, somewhere in Buffalo County, on Wednesday last. Judge TOMPKINS informs us that the victim was a Chippewa Indian, who had shot (though not fatally) two white men in some affray, not distinctly stated. The neighbours collected, adjudged the Indian to be *hung*, and proceeded to execute the sentence on the spot, by running him up to the limb of a tree.

Where the Money Goes.

The Stevens' Pt. *Pinery*, with other ingenuous democratic papers, are anxious to know what the Legislature could have been about, to levy a State tax of $300,000 for this year. That paper says:

> The Legislature has passed a law to raise a 300,000 dollar tax this year. What can they do with this enormous amount of money?
>
> Let us see. Secretary Jones' estimate of the expenses of the year are as follows:

1.	Salaries and permanent appropriations	$44,750
2.	Legislative expenses	38,000
3.	Miscellaneous	198,638
4.	Sundries	62,932
	Total,	$345,315

This democratic estimate answers the query effectually, and particulars are unnecessary unless called for.

ATTACKING THE ABSENT.—The *News*, which read all of its city contemporaries a homily, a short time since, about the want of magnanimity &c., in "attacking" its senior editor, now absent soliciting office at Washington, makes an onslaught, in its Sunday issue, upon Mr. GUNNISON, late Superintendent of Public Buildings in this city. We quote:

> We understand Mr. G. has gone to Washington to inform Mr. Buchanan that as ex-Senator Dodge and ex-Congressmen Wells were not consulted as to this removal, it is to be considered informal. The prevailing opinion, however is, that the new administration is not absolutely bound by the wishes of these ex-gentlemen. We are sorry Mr. Gunnison dies so hard. Pray, did he take that endorsement procured from certain members and hangers on of the board of trade, not to get him office, which he did not want, but to endorse him as capable?

We don't quite see why Mr. GUNNISON has not as good a right to go to Washington, on "office" business, as the Senior editor of the *News*; nor why, in the estimation of the *News*, it is so unfair and ungenerous for the Republican papers to comment upon Mr. SHARPSTEIN's mission thither, but all right and proper for it to reflect upon Mr. GUNNISON.

For the Daily Sentinel.

A Well Deserved Compliment.

Mr. E. Q. SEWALL, Jr., of Milwaukee, has received the appointment of Engineer of the Pacific Division of the Honduras Interoceanic Railway.

Mr. S. came among us about a year since in charge of the Milwaukee & Watertown Rail Road, as its Chief Engineer and Superintendent, but his abilities were never appreciated, and he resigned his post shortly after, in order to preserve a reputation earned elsewhere; subsequently, he became associated with Mr. Brodhead in connection with the Southern Wisconsin Road.

The Honduras Road is one of magnitude and importance, running through the State of Honduras, in Central America, and connecting the two oceans, from Puerto Caballos on the Atlantic, to the Bay of Fonseca on the Pacific coasts; thus forming, when completed, a route some 200 miles shorter, by steamship and rail, than any other between New York and San Francisco.

The affairs of the Company have recently passed into the hands of British capitalists, and the fact that an American Engineer is appointed in charge of the work is a compliment of which the profession may feel proud.

Mr. SEWALL, although yet young, has had a large experience in public works, is an accomplished Engineer and a practical working man.

The Honduras Railway Company may congratulate themselves on making so valuable a selection, while we should regret his loss.

FOUND DEAD.—By the following note from Mr. SCHOEFFLER, editor of the *Banner*, it will be seen that Mr. Washburn, of Oconomowoc, for whom his friends had advertised, has been found *dead*:

> *Editors Sentinel:*—A man, answering to the description of Louis Washburne of Oconomowoc, was found dead in the snow near William Straub's dwelling in Germantown, Washington Co., on the 12th of March last. A Coroner's inquest was held before Justice Phillip Zimmermann, Germantown, who took charge of all the papers, &c. of the deceased, and who will give any further information about the same.
>
> MORITZ SCHOEFFLER.

☞ The Rockford Republican thus speaks of the personal liberty law of this state:

> "We look upon the personal liberty bill of Wisconsin as involving the protection of principles the most sacred and inviolate—rights which are as old as Magna Charta; and indeed the noble position which the legislature of Wisconsin has taken in defence of its own citizens—in these days of political and judicial subserviency to the slave power—is almost as remarkable as the stand which was taken by Barons at Runnemede. Let us hail it as another firm and resolute step taken towards true republican independence. Well done Wisconsin!"

CATAMOUNT KILLED.—An immense animal of the species of catamount or panther was killed about four miles route of this city on Wednesday last. She was started from the Winnebago marsh and led her pursuer a chase of six miles in this direction, when a rifle bullet put an end the flight. She measured six feet entire, when raised from the ground.—*Fond du Lac Journal.*

MEN AND THINGS IN GOTHAM.

NEW YORK, March 24th, 1857.

MESSRS. EDITORS:—The days have drawn nigh, which the Poets call Vernal, and, drawing some what on the imagination, we luxuriate in the gladsome time of Spring. March has been a very mixed up month; its advent was neither lamb-like nor lion-like, but the frisky young fellow drove into town with double harness, and how could he manage with such an ill matched pair? preposterous the idea! We sincerely hope he will never again descend to rash experiments, but in the good old style, come and go, as Marches time out of mind have done, either with one aid or the other. The mantle of old winter has been again thrown over our earth, as if in pity, to hide the seas of mud which surge within the narrow boundaries of our Curb Stones. It is a common fling to tell a person, if he don't affect a certain locality, to clear out, and return to the places which once knew him; such advice might be given to every Gothamite just now, and were it taken, depopulation would inevitably ensue.—Mud is sometimes supposed to be clean, but ours never pleads guilty to the *soft* insinuation, particularly after it has reached the mature, I was going to say manure, age of six months. This compound dispensed lavishly, without regard to person or parts, looks or sex, by the stirring, driving, rushing, crushing thousand teams, which make Broadway a complicated, tangled mass, day after day, filling it as a fat boy does a tight pair of extenuations, comes under the condemnations of an outraged and defiled community, till every man literally eats dirt and feels a corresponding humiliation which knows no alleviation, no *redress*, except in a change of garments and a change of city government. Broadway is *very* crowded, and as folks have got tired of other subjects, they seek relief, in imagining how the Broadway that leadeth to Union Square, may be relieved. The Aldermen, in Special Committee have had it under consideration, our *Wood*-en Head has given an opinion, and every blockhead has advised and devised, which leads me to refrain from giving publicity to mine. Fernando opines that the "trottoir" should be infringed upon, perpendicular projections decapitated, area railings sacrificed and cellar descents filled in, but the friends and enemies of that speculative man, vulgarly speaking, smell a rat of the largest kind in the proposition, and see prospectively, a desecrating Railway in the noble thoroughfare, having for a prominent stockholder his honor, the Mayor. The other important change and the one *our children's children* (for my authority—vide the 4th of March inaugural) may see carried out, is the best and only practicable one; it is to connect Green with Church St., and Trinity Place, widen the Avenue made and you have a parallel to Broadway from 14th st. to the Battery. A similar innovation might be made on the East side, through Crosby and other Sts., but is would be more difficult to undertake, and less useful when completed. It is estimated that *about* 2,8000 vehicles pass through Broadway daily.

The undeviating life of a New Yorker is singularly striking, even to himself on reflection, and at first it hardly seems true, that the most of us, year after year, pursue a very beaten track and limited, knowing only by hearsay what goes on beyond it, thus the majority of Gothamites never see the Bowery, the Battery, South st. with its great ships poking their noses into sail makers windows on the inhabited side, as if fond of the smell of *Duck*: nor North of Union Park, or the great changes which time makes in brick and mortar in our midst.

Viola felt perfectly faint, not long since, in wending his way to that once old fashioned locality still ycleped Franklin square, where he was wont to congregate in his spring time, to see the old Walton House, and domicil made sacred by the residence of the great Washington, study music through the windows of Firth and Ponds' old store, which was all in all in Gotham then, and wonder and ponder over Gosling's blacking establishment, adjacent thereto, resplendent in statuary, and tin boxes containing mountains of quiescent brilliancy; and, hard-by, he remembers well a famed receptacle of unimpeachable and unapproachable "Toffy," sometimes spelt with an *a*, which received his juvenile worship: alas! that all of us should become back sliders in that sweet religion. The place then was cleanly and quaint, and Gotham was a come-atable term—down town was in vogue, and many a well to do trader eat and slept above the store where he made his profits of trade; and it may seem strange that I, not very old, can call to mind such days as those, which, to think of now, almost carries one back to good old colony times. With this unexpected episode, which I might enlarge, did it appear seemly, I intended to say, that the old spot had disappeared, and the place looked much as the world must have done when "Chaos" reigned, in its stead, apart from piles of rubbish, and scores of elevated and depressed and shattered houses, one took a straight look up town into the once rustic Bowery. Canal St., they say, presents the same appearance in its change, but my explorations have not tended thitherward, and the question is, will they ever? Let us not anticipate.

The arrival of Lord Napier, the new British Minister, in the "Persia," was the occasion of a very pleasant and satisfactory interview between him and a delegation from our prominent business men; may it augur well for all our future relations with the Mother country. His Lordship is said to be unusually democratic in his dress and general appearance, with the bearing of a gentleman and a keen business man.

Mr. Sumner left our city for Europe in the *Fulton* on Saturday last. He received while here, quietly, a good deal of attention, and a crowd of friends waved a farewell to him from the dock. A salute was fired in honor of the occasion.

The height of advertising was displayed here last Saturday by those temporarily colored gentlemen, Messrs. Christy and Wood. It being the time of kites, those ingenious men hit upon the weakness of all boydom and dispensed to a countless crowd of disorganized infantry many thousands of those elevated toys, colored and decorated with their business cards, till not to know the originators as well as kites became well nigh an unpardonable sin. Another little business transaction of this firm has been to stamp with their name over 30,000 quarters, passed through their hands during the past year.

Lent stops, it is said, much gaiety in our city; so much to the credit of Lent. The opera, however, survives, but does not flourish beyond all precedent. "Strakosch" is repeating his season at the Academy, and has brought out Madame de Wilhorst in La Sonnambula and The Daughter of the Regiment, which roles have redounded to the credit of that lady, more than could have been expected; she has been the only remunerative card to the management. Thalberg and others it is said have taken the building for a coming year, and his name and influence will introduce to us much foreign talent, which, will prove I trust more and more that the opera is a necessary luxury. The Maretzek clique, it is rumored, have taken Niblo's for a season, so we shall have competition, and if it don't pay, the community will be last to suffer. The great pianist, with his night concerts and delightful matinees, all the rage, has fairly captivated our music loving public and elevated himself by his unostentatious liberality to an enviable position in the hearts of the people. How such a man dignifies and glorifies art—would there were many such. Miss Heron has about brought her Camille and Medea performances to a close, and it is said will soon act Bianca, (Fanny Kemble's once great role) Juliet and other characters, not to mention the heroine in Mrs. Dr. Howes' new play of the World's Own, for which Mr. Stuart has paid $1,000 and pronounces it the finest dramatic work of modern times; but the public are the best critics after all. Ole Bull, not so fortunate in his financiering, as his fiddling, has taken to the last once more and finds beneath the rosin a mine of gold. Why doesn't every body stick to his own trade? Success to the Norwegian, for he draws a good bow, a better one than "my grandfather drew at Hastings" by a long shot.

VIOLA.

Arrest and Discharge of a Swindler.

Some weeks since, as our readers doubtless remember, a man named THOS. C. GILMAN, of Rochester, N. Y., victimized a number of the Banks and Bankers in this city, to the tune of $16,000, by selling them worthless drafts, drawn by Wm. Breck of Rochester upon the New York Corn Exchange Bank. The fraud was not discovered until about one week after Gilman had got the money and got off. Active steps were immediately taken, however, to ensure his arrest and bring him to justice. Sheriff PAGE, Chief of Police BECK, and other officers from this city were put upon his track and followed him like so many sleuth hounds. Having struck his trail, BECK started for St. Louis, while PAGE returned to this State for the necessary requisition.—PAGE, meanwhile, had telegraphed to a number of different points, notifying the police to look out for the fugitive. One of these despatches was sent to New Orleans, and in reference thereto Page had the satisfaction of receiving here, the very day he started with the requisition, a message from Col. FORNO, Chief of the New Orleans police, apprizing him that GILMAN had just been arrested in that city and $26,000, in cash and drafts, found in his possession. PAGE instantly sent back a despatch to FORNO, verified by the signature of our Mayor, requesting him to hold on to Gilman, at all hazards, and saying that he should be fully indemnified. Meantime BECK was following Gilman's trail down the Mississippi, and PAGE, having obtained his requisition, also started in pursuit. At Baton Rouge PAGE stopped and got a warrant from the Governor, for Gilman, and was congratulating himself that all was right, when he received a despatch from BECK, at New Orleans, saying that GILMAN had been discharged. It appeared that he was held in custody there about 36 hours and then discharged, on frivolous and insufficient ground, just two days before BECK reached the spot.—The following paragraphs from New Orleans papers explain the transactions:

"A"

> RECORDER SMITH'S COURT.—Thos. C. Gilman was arraigned on the affidavit of the Chief of Police, charging him from information received, with uttering fraudulent and worthless drafts on Wm. Breck, of Rochester, N. Y. Col. Forno has received several dispatches relative to operations of such a nature, and to a large amount, by a person named Gilmore or Gilman, in St. Louis, Chicago and Milwaukee, and also information that he had come South. He was arrested last evening on board the steamboat Belfast and had in his possession $26,000 in cash and drafts. He was remanded by the Recorder to await requisition.—*New Orleans Delta, Feb. 25.*
>
> POLICE MATTERS—BEFORE RECORDER SMITH.—Thos. C. Gilmore or Gilman, was, on motion of his attorney, Mr. Van Dalson, discharged. He, as will be remembered, was arrested on Monday evening on board of the steamboat Belfast, on a charge of uttering fraudulent and worthless drafts on Wm. Breck, of Rochester, N. Y. The counsel, however, contended that a telegraphic despatch was not sufficient to warrant the arrest and detention of a prisoner, as the despatch may be incorrect, or willfully false. These pleadings the Recorder held to be correct; hence the discharge of the prisoner.—*From the N. O. Picayune, Feb. 26.*
>
> SWINDLERS ARRESTED.—We learn by telegraph that Gilman and True two parties that have been disposing of Wm. Breck's drafts on Corn Exchange Bank, New York, to the extent of fifteen thousand in Milwaukee, twenty-five thousand in Chicago and thirteen in this city, have both been arrested. Gilman was taken in New Orleans, and True at Hickman, Ky., and we presume will soon make their appearance in this city, in charge of the proper officers.—*St. Louis Republican.*
>
> The Republican is over sanguine in supposing that Gilman will soon make his appearance in St. Louis, under arrest. He was, after his arrest here, kindly looked after by the proper parties, and dismissed from custody on [illegible] appearance before the Recorder, and [illegible] arge, though, we believe, not in posse[illegible] much funds as when arrested. How about that, Messieurs of the police?—*N. O. True Delta, March 6th.*

Our officers thus lost their man, after a long, close and almost successful pursuit, and much to their disappointment. True, Gilman's comrade, was arrested in Kentucky and carried back to Chicago, where he is now in Jail. It is to be hoped that Gilman and the rest of the gang will yet be arrested and brought to Justice.

BAD PROSPECTS FOR SPRING NAVIGATION.—RYAN, the Michigan weather-prophet, informs the Adrian *Watchtower* that "there will be 45 storms from March 1st to June 1st," and there "there will be a heavy frost in May, that will cut down the hickory-grubs."

We don't care so much about the hickory-grubs over this way, but would be much obliged to the prophet if he would revise his calculations, and see if he can't reduce his number of storms a little.

CONSOLIDATION.—The N. Y. *Times* of the 12th says, in its money article:

> We understand that the preliminaries for a consolidation of the interests of the Chicago and Milwaukee and Wisconsin Lake Shore Roads were agreed upon in this City to-day, and the umpires to fix the relative value of the property agreed upon. The result is expected to be fortunate for both concerns—making a single interest in operating the line of 85 miles along the shore of Lake Michigan from Chicago to Milwaukee.

"Steals" on the State.

The claims which are presented to the legislature against the State are of all sorts, and for all conceivable objects. It is considered all right to "pluck the public goose," and every man who can get a grab "puts in." As a specimen of this sort of thing we give below a report of Mr. Harvey, chairman of the committee on claims, upon the claim of one A. F. Phillips, "military store keeper" at Milwaukee, of $300 for salary, and $216 rent of rooms in which the fighting tools of our valiant State were said to have been kept, in the year 1856. As a specimen of one of the "Barnacles" which adhere to our ship of state it is decidedly rich. The report says that the committee "have ascertained on enquiry that the whole value of arms, muskets, tents and sabres, belonging to the State, under the charge of this *soi di sant* "military store keeper," does not exceed $100; that there was appropriated to the said A. F. Phillips, at the last session of the legislature, the sum of $368 00, for services and expenses, as military store keeper up to January 1st, 1856, which is "indubitably" (as Mr. Ryan would say,) more than Mr. Phillips' services, in that capacity, would be reasonably worth to the State, from January 1855 to eternity.

> That your committee have ascertained that Mr. Phillips was notified, at the passage of his former appropriation, before mentioned, by the governor, in writing, to discontinue his "institution," and send the property of the state in his possession forthwith to Madison; but that he sticks to the state arms like the rust in which they are enveloped; and holds on to the title and perquisites of his office, derived from the Great McManman, "defying the world in arms," and even himself," to make or unmake a military storekeeper.
>
> Your committee therefore beg leave to return said accounts back to the Senate, without a bill, and recommending that they be rejected."—*Janesville Gazette.*

All highways laid out by the Supervisors of any town and recorded, any portion of which shall have been opened and worked for the term of three years, shall be deemed to be and are hereby declared to be legal highways so far as they have been opened and worked, notwithstanding the Statutes may not have been in all respects pursued in laying out the same.

LAKE SHORE RAIL ROAD CO.—From a gentleman of this city who recently returned from Milwaukee, we learn that it is now the settled purpose of this company to prosecute the work north of Grafton, with vigor. That Mr. Alton, Agent and Chief Engineer, eas really bought the iron and rolling stock of the road sufficient to build it to this city.

The people of this county on the line of the road, and of this city, will extend liberal aid to this Company.—*Sheboygan Journal.*

The Frightful R. R. Massacre in Canada.

From 80 to 100 Lives Lost.

[From the Detroit Free Press.]

An accident occurred on the Great Western Railway night before last, which for its multiplied horrors and terrible loss of life, surpasses anything that has ever occurred on the American continent. We have received the particulars concerning this awful tragedy from Mr. D. B. Cook, of the Niles *Republican*, who was at Niagara Falls at the time of the accident, on his way home from Washington, and came on in the next train to the scene of the disaster. He arrived there in a few hours after its occurrence. At the time of his departure, nothing had been done in the way of clearing up the wreck, with the exception of the extrication of what dead bodies were within reach from the outside of the cars. We give what particulars he was able to obtain in the bustle and confusion of such an unexampled occurrence.

The 6 o'clock P. M. way passenger train from Toronto, going west, consisting of locomotive, tender and baggage and two passenger cars, ran off the track just before reaching the draw bridge over the Des Jadinese canal, one mile from Hamilton, C. W., and plunging with headlong force upon the bridge, the whole structure gave way, and the entire train was precipitated sixty feet into the water, which was fifteen feet deep. The locomotive and tender broke through on the instant. The baggage car followed, and in its descent, depressed the forward end of the first passenger car, so that the coupleing which connected it with the last car broke, and it was hurled through the air, executing a complete somerset, striking bottom upward in the water, which closed over and covered it entirely, with the exception of a few inches of the bottom. Not a soul that went down in that fearful plunge ever saw the light of day again. The second passenger car followed, striking the first with a terrible crash, and sliding off at an angle of about forty-five degrees, was buried two thirds of its length in the water. The only passengers saved were in the rear end of this car. The locomotive and tender were completely submerged, with the baggage and first passenger cars on top of them. The second passenger car rested partly on the first, which circumstance was the only means by which a single life out of the whole saved. We will except however, the conductor, Mr. Edward Barrett, who, with a prudent forethought, which looks very much like an anticipation of the event, had stationed himself upon the steps of one of the passenger cars, and jumped the moment he saw the locomotive disappear through the bridge.

Nothing was known of the state of affairs inside of the first car up to the time of the departure of our informant, but the scene inside the second is described as having been terrible beyond description. According to the statement of Capt. Alexander McBride, of Port Barwell, who escaped with serious injuries, the passengers all started to their feet at the moment of the cars leaving the track, and had just gained the aisle in the centre when the car went over. Passengers, seats, stoves, and everything else that the car contained were thrown with terrible force to the front end, where they lay in inextricable confusion. Capt. McBride was caught among the ruins in a way which secured him from the reach of the water, and detained him sometime before he could release himself. He describes the scene as perfectly heart-rending; the shouts, groans and frantic efforts of the injured persons, endeavoring to extricate themselves, mingled with the hissing of the red hot stoves and their contents of blazing coal, and the gurgling of the waters as they rushed in and closed over the living mass of struggling life; while wounded and helpless persons clung to him with an energy that threatened to engulph him among the general destruction. Breaking his way out at the rear end of the car with a few others, they succeeded in gaining the ice, and from that the main land, and immediately sought assistance in Hamilton. Out of the two crowded passenger cars, but thirteen persons were known to have escaped with life, and but one solitary person without serious injury. The two cars, according to the statement of Captain McBride, were as full as they could hold. The number could not have been less than one hundred, and it was estimated by some, as high as one hundred and fifteen. Nothing could be learned from the conductor in regard to the matter, as he seemed to be in a state bordering on insanity.

Up to the time of the departure of Mr. Cook, thirty-five corpses had been taken from the second car, which was only those that could be reached from the end which was out of water. A locomotive was on the spot, and, with a cable attached to the car, was endeavoring to pull it out of the water, but without avail. A hole had been cut in the bottom of the first car, and one or two bodies taken out.

The names of the victims recovered, as far as they had been recognized, are as follows:

KILLED.—Samuel Zimmerman, banker; Alexander Bromfield, engineer; George Knight, fireman; Mrs. Stevenson, wife of J. F. Stevenson, of Hamilton; Donald Stuart, residence not known; J. Henderson, of the locomotive department in Hamilton; Adam Ferrie, Hamilton, a son of Capt Graham, of Hamilton; and a Mr. Barton, residence not known.

WOUNDED.—Those who escaped with life were, as nearly as could be ascertained, as follows: Mr. Street, residence not known, leg badly broken and otherwise much injured; Mr. Barton residence not known, extricated from the second car, badly injured; Mr. Yerlington, Port Stanley, badley injured; John S. McCollum, Port Burwell, leg badly fractured; Mr. Ferson, residence not known, badly hurt in the back; Mr. Shurrell, residence not known, life despaired; W. K. Muir, an attache of the road, was on the platform with the conductor and jumped at his bidding, slightly hurt; Capt. Alexander Burwed, seriously injured in the head; and Edward Richardson, a conductor of another train, who escaped with slight injury.

A Mr. Avery, who was somewhere in the neighborhood at the time of the accident, was the first to render assistance, by cutting a hole through the car and drawing out some of the inmates. The first thing he got hold of was the corpse of a woman with a child in her arms. The train was a way train, and was mostly filled with the business men of Toronto and Hamilton. Very few women were aboard. Mr. Zimmerman was thrown from the car in its descent, and was found upon the ice near the shore. The ice was of a thickness of about ten inches in the canal.

The excitement at the Suspension Bridge was immense, after the receipt of the news; the telegraph office being crowded with applicants for news from the scene of the disaster.

The spectacle at the place when the bodies were deposited as they were taken out, is said to have been heart-rending in the extreme. A large number of the passengers belonged at Hamilton, and their friends and relatives thronged in great numbers to ascertain their fate.

It has been said that the bridge was in a miserable condition, and that the fact was well known to officers of the Company. The circumstance of the conductor placing himself in a place of observation, where he secured to himself the only chance for escape, would seem to argue a marked distrust of the bridge, if not a positive knowledge of its unworthiness.

St. Clair and Rondeau Ship Canal—Meeting at Buffalo.

A meeting of citizens was held at the American Hotel on Saturday evening, to take into consideration the proposed ship canal from St. Clair to Rondeau on Lake Erie, and to hear remarks from Mr. Wood, of Chatham, C. W., on the subject.

The meeting was organized by calling Hiram Niles to the chair.

Remarks were made by Messrs. Wood, W. A. Fox, O. W. Ranney, Cyrus Clark, Bugbee, and others, and a committee appointed to draft resolutions, who reported the following, which were unanimously adopted:—

Whereas, It is proposed to construct a ship canal from the point where the river St. Clair empties into the Lake St. Clair, to Rondeau on Lake Erie, a distance of 87, but capable of being reduced to 27 miles; thus saving 155 miles of difficult, precarious, and expensive navigation, and from three to four days time in the trips, each way, of vessels sailing to and from the upper lakes, and also avoiding the detentions and collisions incident to the flats of the St. Clair, and the consequent immense pecuniary damage both to cargoes and hulls; and whereas, there appear to be no difficulties in the way of its construction so far as the face of the country is concerned, and the cost could not exceed such a figure as a moderate toll would defray and pay a large interest on the investment; and whereas, we are confident that the plan which has been presented to us this evening is not only practicable, but eminently desirable, therefore

Resolved, That we view with favour any plan which has for its object the improvement of the navigable waters upon which the commerce of the west is dependent.

Resolved, That the project submitted to us by R. S. Wood, Esq., for the construction of a ship canal from the River St. Clair to Rondeau on Lake Erie, is regarded by us as one of the most important projects of this nature for which this age is celebrated, and meets with our hearty approval.

Resolved, That we recommend the proposed scheme to the favourable consideration of all persons interested in the commerce of the west, and more especially to those interested in the navigation of the lakes.

On motion P. L. Sternberg, H. C. Walker and Hiram Niles were named as provisional directors, and the meeting adjourned.

DIED.

In Milwaukee, on Thursday, March 12th, of Pulmonary Consumption, Mrs LEAVINA W. GOODRICH, wife of H. W. Goodrich, and daughter of Ebenezer and Catharine Wheeler, of Kingston, N. Y.

At her death she was in her 33d year. She had long been connected with the Church of Christ. Her hopeful temperament had led her to expect a greater length of days, though often warned by disease; but when at last convinced that death was near, she submissively yielded to the inevitable degree, and calmly "fell asleep."

Her remains were taken to her parents' home, and will sleep where her early companions may read her epitaph.

Review of Markets, for the Week ending Mar. 17

OFFICE OF THE DAILY SENTINEL,
MILWAUKEE, March 17, 1857.

Received by Mil. & Miss. R. R.—64 bbls flour, 4,800 bus wheat, 118 do corn, 77 hides, 2 hogs, 7 bales pelts, 8 bbls highwines, 6 do pork.

By LaCrosse & Milwaukee R. R.—495 bbls flour, 5,365 bus wheat, 194 do barley, 148 pelts, 108 hides, 10,274 lbs sundries.

Watertown Division—1459 bus. wheat, 144 bbls flour, 20 pelts, 25 bu barley, 14 cords poles, 1,900 lbs sundries.

By Mil. & Horicon R. R.—2119 bus wheat, 281 bbls flour, 6 hides, 5 bdls skins, 2,000 pounds sundries.

Received by railroads during the week past:

4,320 bbls flour, 92,775 bu wheat, 910 do rye, 1,583 do oats, 87 do barley, 494 do corn, 81 do grass seed, 145 do potatoes, 1,434 hides, 463 pelts, 15 bales do, 10 kegs butter, 10 cars stone, 75 doz brooms, 4,450 lbs wool, 60 tons pig iron, 29 bbls pork, 1046 pounds fish, 28 bbls highwines, 83 hogs.

The past week has been a quiet one in the market, with no change of importance in the prices of produce. The stock continues to accumulate, and will be heavier at the opening of navigation this year than in any previous year. If navigation should no open much earlier than usual, we shall have in store at this port about 70,000 bbls flour, and 1,000,000 bu wheat. We hear of no positive contracts for freights as yet. Owners of vessels and shippers differ materially in their ideas on the subject.—We publish to-day, for our Weekly edition, an article showing the number and capacity of the warehouses at this port; the latter will be largely increased during the current year. We also republish the table giving the amount of produce in store March 10th this year and last. The stock of pork has been kept low by the steady demand for the northern part of the State, and the amount to go forward in the spring will be trifling.

The wheat market continues dull, with not much prospect of any improvement. It is a fact deserving of notice that the quality of wheat coming in on the Northern roads is better and more saleable by 2 or 3 cts a bushel than that which reaches us by the Mil. & Miss. R. R., much of the latter from prairie farms. Farmers and others who find that their wheat does not bring the highest figures quoted, ought to take such opportunities as offer to compare the qualities sold on a given day.

We annex our usual Price Current, and money article:

We annex the Weekly summary of the market from Goodrich & Terry:

We have to report a moderate demand for Groceries, without any noticeable change in prices.

From the statement of Champomier, of New Orleans, just published, we learn the exact amount of the Louisiana sugar crop of 1856 to be 73,976 hhds—against 231,427 hhds in 1855, 346,635 hhds in 1854, and 449,324 hhds in 1853, showing the production of last year to have been just one-sixth that of the third year previous.

Louisiana planters are said to be very sanguine in regard to the next year's crop, believing that the insect that has made such serious ravages in the cane heretofore, has been exterminated by the severe frosts of the present season. If their hopes are verified we can look for a large increase in the domestic production, as this fact, with the high prices obtaining, will probably cause a more extensive cultivation. We do not anticipate that the very slight reduction in duty of the new tariff will materially affect prices.

Recent auction sales of Teas in New York show an advance of 10 to 15 per cent on the highest grades of Green and a much greater advance, say 30 to 40 per cent, on Oolongs, and the lower qualities of all descriptions.

Money Market.

BANKING AND EXCHANGE OFFICE OF BRIDGE BROTHERS,
228 EAST WATER ST., MIL. MAR. 16, '57.

During the past week we note no change of consequence and have still to chronicle a close market in money matters. Advices from the East exhibit a state of affairs which can hardly be considered doubtful. That the tendency is slowly, yet certainly towards a still greater stringency, we have no doubt. Knowing that we are and have been, to a great extent, dependent on the East, we have to urge, for the present, not to rely too strongly on help from there; for the future let us rely more on ourselves. The great point at which all should aim is to centralize and fix among us a *bona fide* capital, that we may at no distant day, stand on our own bottom, and trade on our own account, instead of acting as agents for others. Don't let Milwaukee be the mere clerk of New York any longer than is necessary.

We append an abstract of our Circular, copies of which may be had at our office:

Stocks and bonds are tending down, and the market is very unsettled. There is little demand either for home or foreign account.

Land Warrants are in moderate demand at a slight reduction in prices. We quote selling

80 and 100 acres	$1,06

Exchange on New York is somewhat easier, but sales remain the same: buying at 1 per cent, selling for Milwaukee city, New York and New England notes, and coin ½ per cent, currency 1½ per cent.

Uncurrent Money List exhibits a few changes, which are noticed below:

Indiana Free Banks, (specie paying) 2 to 5 per cent discount.

Southern and Pennsylvania Banks, 2 to 5 per cent discount.

Erie City Bank 50 per cent discount.

The numerous improvements which we have added to our Steam Works, (Nos. 215, 217 and 221 East Water St.) places us beyond the reach of competition in our line of business.
The severe tests which the Badger State Safe has stood both in this city and elsewhere, establishes its proof against fire and water, for the protection of valuables.

Democratic Meeting.

FIRST WARD.—A Mass Meeting of the Electors of the First Ward is requested to meet at the house of PETER TEMS, corner of Jackson and Ogden streets, on Wednesday evening, the 18th of March, at 7½ o'clock, to select Ward officers for the ensuing year.

POLICE COURT, MARCH 16.

BEFORE CLINTON WALWORTH, POLICE JUSTICE.

Andrew Burdoff, fast driving on bridge, fined $1,00.

George Nichols, drunk and disorderly, fined $2,00.

James Rourke, for being drunk and disorderly, was sent to jail for 15 days, in default of $10,00 fine.

A. Hamilton, drunk and trying to fight, was fined $3,00.

John Evans, drunk, fined $1,00.

THE RAPE CASE.—CHARLES DIMMICK was brought down from jail on a charge of having committed a rape, on the 8th of March, upon Ann Sowa, a girl eighteen years of age. The District Attorney was present to prosecute, and J. E. ARNOLD and G. W. SCARRETT to defend. The case was adjourned to Thursday, March 19th, at 9 A. M., for examination. The defendant, as well as the complainant, were removed back to jail. The girl has been already tampered with, so it is said, which is the object of the prosecution in detaining her in custody, as the principal witness for the State. The bail was fixed at $3,000, in case the defendant could procure it.

John Clancy, who, together with his wife, was tried at the last term of the Circuit Court, for robbing a blind man of upwards of $40, and acquitted by the Jury, and only by the jury, as all others who heard the trial were perfectly satisfied of their guilt—was brought up for being drunk and fined $10,00 and costs.

When this man was taken to the Police Station, he was searched and $40 of the money stolen from the blind man was found upon him. An action will be commenced for the recovery of the money by the friends of the blind man. It is said that Clancy will demand a jury trial and wants the same jury that tried him for the robbery, claiming that he is entitled in a civil as well as a criminal trial, to a *jury of his peers.*

SAINT PATRICK'S DAY.—To-day is St. Patrick's day—all day. The birthplace of ST. PATRICK has ever been enveloped in mystery. Ireland has always claimed him as her Patron Saint, if not her child; Scotland also asserts that upon her soil he first drew his breath. Wales too, probably from his invincibility, calls him her own, and asserts that an ancient Briton was his mother, and a Roman his father, and that somewhere amid her rough chasms and dells, over which no conqueror's flag ever yet waved, Saint Patrick was born. One of the ditties on the Saint runs thus:

"St. Patrick, the holy and tutelar man,
His beard down his bosom like Aaron's ran,
Some from Scotland, from Wales, will declare that he came,
But I care not from whence, now he's risen to fame."

In a work called his "Confession," he himself says that he was born at Bonaven Tabernize, which is supposed to be in the town of Kilpatrick, at the mouth of the river Clyde, in Scotland. One thing is certain, he was neither a Native American or a Know Nothing. All historians, we believe, acknowledge him to have been a gentleman. One of the songs, and they are many, to his memory, commences—

"St. Patrick was gentleman,
And came of dacent people;
He built a church in Dublin town,
And on it was a steeple."

We have somewhere read, if memory serves us right, that he was once carried into slavery; if so, it was probably by those who supposed he was a Scot, and paid little attention to his parents or birthplace, having no dread of any Courts, if there were any in those days, awarding him back to freedom if he appealed to them—his case might have been thrown out of Court.

It makes but little difference where he was from; his birthday is commemorated all over the world by Irishmen:

"No saint is so good Ireland's country adorning;
Then hail to St. Patrick, to-day in the morning."

St. Patrick's day has always passed quietly in this city, "9 o'clock and divil a blow struck yet," is a cry not to be heard in Milwaukee. A festival, a supper or a ball, the proceeds annually given to the Orphan Asylum, have been the general doings on this day. To-night a festival will be be given in the Arsenal of the Union Guards, in Furlong's Block. A supper, songs, speeches, toasts, &c., will be the order of the evening; a good time is looked for, and we doubt not that should there be a surplus over and above the expenses, it will find its way to the treasury of the Orphan Asylum.

Fire Department Election.

The Annual Election for Chief Engineer, Assistants and Wardens of our Milwaukee Fire Department, came off yesterday afternoon, at the house of Supply Hose Co. No. 1. There was a full muster of Firemen and a spirited contest for some of the offices. The result was as follows:

Chief Engineer—DANIEL SHULTZ.
First Assistant—FRANK DAVLIN.
Second do PHILIP DALEY.
Third do P. McDONOUGH.

Fire Wardens—1st ward—William Spence, N. Ludwig. 2d.—Hiram Moore, J. W. Luscomb. 3d.—M. Phalen, John H. Ryan. 4th—W. H. Holland, W. G. Haack. 5th—D. O. Read, August Meyer. 6th—N. Y. Rudd, W. Tompkins. 7th—A. C. Jacks, Lewis Fuchs. 8th—C. T. Melms, H. Milmann. 9th—John Laubenheimer, David Howes.

Mr. SHULTZ is the faithful and capable Foreman of Engine Co. No. 2, and a veteran fireman. He was elected by acclamation and without an opposing vote. The Assistants and wardens are also good selections.

After the election was over the Firemen formed in procession and marched about town, headed by a band of music, and dragging the machine of No. 2, on which the officers elect were seated. The election passed off with great good feeling and to the general satisfaction of the Department.

ALDERMAN OF THE SEVENTH WARD.—Some 60 or more prominent German electors in the Seventh Ward have invited Mr. WM. A. PRENTISS to become a candidate for Alderman, for two years, of the Seventh Ward; and Mr. PRENTISS has assented to this request. The correspondence will be found in our columns. Mr. PRENTISS has heretofore filled this post and made altogether the best Alderman the Ward ever had. We hope that he may again be chosen, and that the example thus set, in the Seventh Ward, of inviting substantial, capable and trustworthy men to become candidates for Aldermen, will be generally followed.

DR. BELLOWS' LECTURE.—No better evidence, we think, could be given of the fact that the public have almost ceased to appreciate good lectures, than the very small audience which heard Dr. BELLOWS on Saturday night. Those who did hear it, are emphatic in their praise of it, as altogether the best of the season. Eloquent, thoughtful, logical, it contained a host of truths, which were impressed upon the listeners with emphasis, and will not soon be forgotten.

REAL ESTATE SALE.—Mr. Cook, of this city, sold on Saturday, 74 acres of timber land near Lamberton, in this County, for $9,500 cash. A cheap bargain.

Common Council Proceedings Last Night.

Petitions Presented:—By Ald. Mallory, for a sewer at the corner of Marshall and Division streets.

By Ald. O'Brien, of Ryan and Junger for $500 reward for arresting "Miser Jones."

By Ald. Shortell, for removal of toll-gate on Green Bay Plank road.

By Ald. Humphrey, concerning taking certain lands for improvement of Menomonee river.

The Chief of Police's Report for February shows 182 arrests for the month.

City Attorney reported on Wm. Potts' claim, in favor of allowing him $30 or 40.

The plat of Hull's addition was confirmed.

An ordinance was passed providing for paying juries in laying out streets, &c., and providing that no city officer shall be a juror in such cases.

An ordinance for issuing bonds for $10,000 towards paying for the bridges was introduced.

An ordinance to issue $25,000 of bonds to meet city debt coming due 31st of March was passed. The Mayor stated that $25 000 of the city bonds had been sold at 80 cents in N. Y. He recommended the hypothecation of bonds, and getting 60 days time, till money matters mend.

An ordinance passed to prevent railroad trains running in the city except by license.

A resolution passed that all buildings in streets or public grounds be removed by April 15th.

The Clerk was directed to give the usual notice of the elections for the 1st of April.

A communication from the School Commissioners stated that the $1000 expended on the 3d ward School house was entirely wasted, and the building likely to fall, also that the ward building was in a bad condition.

An ordinance passed to issue $10,000 bonds for bridge fund. Adjourned.

Charter Election—Correspondence.

MILWAUKEE, March 12, '57.

To Wm. A. Prentiss—

DEAR SIR:—The undersigned, voters of the Seventh Ward, placing the greatest confidence in your ability and honesty, and knowing you to be conversant with the duties appertaining to the office of Alderman, request the use of your name as a candidate for Alderman of the Seventh Ward for the term of two years at the ensuing Charter Election, hereby pledging you our most hearty support.

MILWAUKEE, March 16, 1857.

GENTLEMEN:—Your letter of the 12th inst., requesting the use of my name as a candidate for the office of Alderman of the Seventh Ward for the term of two years, at the ensuing Charter election, was handed me on Saturday last, and in reply I will say that I am not ambitious to hold any public or political post whatever, holding, as I do, that the position of a private citizen, attending to his own matters, is much to be preferred to one in which public responsibilities are to be assumed. All of us however, have a deep interest in the proper management of our city government, in all its departments, and we ought to be anxious, therefore, to aid in the election of persons to administer its affairs, who will exert themselves to put down all knavery and cheating in its financial department, and therefore give it a high name at home and abroad.

That great abuses now exist in the administration of both Ward and City matters, is undoubtedly true, and it becomes therefore, the more important that men of stern integrity should be placed in the public offices at an early period to correct these abuses.

If I can aid in bringing about such a result, I will do so cheerfully, and you can therefore have the use of my name for the purpose indicated in your letter.

Very Respectfully,
Your Ob't Servant,
WM. A. PRENTISS.

BLACKWOOD FOR FEBRUARY.—We are indebted to LEONARD SCOTT & Co., 79 Fulton Street, New York, for an early copy of Blackwood for February. The leading articles are: "The War in Asia;" "Scene in Clerical Life;" "The Athelings—part IX;" "From Para to Bucharest;" "Letters from a Lighthouse," and "Lord St. Leonards."

The same publishers have sent us the London Quarterly for January, containing several admirable papers, among them "Homer and his Successors," "Lord Raglan," "Sir Charles Napier," "Rats" and "Prospects Political and Financial." The price of each of these publications is $3 per year, and for both $5. All four Reviews and Blackwood $10. Address Leonard Scott & Co., 79 Fulton Street, N. Y.

ACCIDENT.—A man named John Hunter slipped on the ice opposite Hibbard's Block, and received a severe compound fracture of the leg—the bone protruding through the skin. Dr. G. G. TYRRELL was in immediate attendance and, assisted by Dr. GARNER, reduced the fracture. The man is now doing well.

BOOTS AND SHOES.—The sale of 10,000 pairs of boots and shoes, advertised by WALL for some days past, commences this morning at 10 o'clock at the City Auction Room.

"THE WEEKLY NOVELLETTE."—This is a new candidate for large circulation, published in Boston, for which McSORLEY is the agent here.

When we say that SYLVANUS COBB JR., so ardently admired by Young America, writes for the Novelette, what more can we say?

PINNEY YOUNGS' PATENT SAWING MACHINES.

PATENTED JANUARY 30, 1855.—REISSUED OCT. 2, 1855.

THIS IS TO CERTIFY, That we purchased the first Siding Mill built by Pinney Youngs, of Milwaukee, and that we have run the same Machine at our Mills at Bay de Noque, (Mich.) the past two years, and that it has exceeded our expectations. We have no hesitation in saying that it will cut Two Thousand Feet, superficial measure, per hour, and upon a trial of twelve hours we cut 32,184 feet, superficial measure, of Flooring and Siding.

N. LUDINGTON & CO.

Milwaukee, Sept. 18th, 1856.

This is to Certify, That we have used one of Pinney Youngs' Patent Sawing Machines or Siding Mills, for about one year, and find it the most perfect Machine we have ever seen. It is easily kept in order. We have expended but a shillings for repairs on it as yet.

We have never seen any Machine of the kind that will in any way compare with this. It will cut nearly or quite double the amount of Lumber in the same time of any other mill we have ever examined.

The man that runs it has offered to bet one thousand dollars he could saw in this Siding Mill Fifty Thousand Feet of Lumber within twenty-four hours—The Lumber sawed in this mill is of universally even thickness, which is not the case with any other we have seen.

We really would not exchange our Machine for any other ten machines of any other Patent we ever saw, for our own use.

BRAND & CO.

Algoma, August 20th, 1856.

CHICAGO, August 16th, 1856

MESSRS. PINNEY YOUNGS & CO.:

Gents—We have in use, in our mill at Pensaukie, Green Bay, two of your Siding Machines, and find them to answer our expectations in all respects. We prefer them to any we have ever used, or of which we have any knowledge. From the report of our Superintendent, we learn that one of your Machines cut during the week ending July 12th, 155,558 feet of Lumber—mostly fencing and flooring—being about 26,000 feet every twenty-four hours. For rapidity and smoothness of sawing, as well as durability of construction, we think it cannot be equalled by any other Machine now in use.

Yours, truly,

F. B. GARDNER & CO.

SALOM'S MERCANTILE COLLEGE!

A Perpetual Ticket for $25!

GENTLEMEN desirous of acquiring a thorough Mercantile Education, are assured that the advantages presented at this institution are unsurpassed.

The Principal takes this opportunity to acknowledge the courtesy of several of the most distinguished Shipping and Jobbing Houses in the East, who recently allowed him to examine their books, besides explaining many original plans for economizing labor, which, adopted as in some instances after the experience of half a century, may be justly designated the *ne plus ultra* of the art.

These advantages, grafted upon Mr. SALOM'S long practical experience in a variety of Counting Houses, have enabled him to elaborate a novel and valuable series of transactions, introducing all the great heads and ramifications of mercantile routine to be actually developed by the student.—A perpetual ticket confers the privilege of instruction in Book-Keeping at all times, as well as tuition in Writing, Mercantile Calculations, Law, Correspondence Forms, &c.

The Surveying and Mathematical department is in progress during the day and evening.

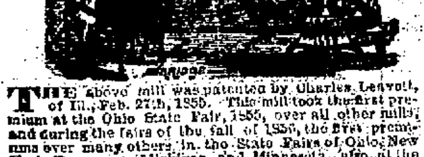
Every Man his own Miller.
PORTABLE CAST IRON GRAIN MILL.

Young America Improved and Perfected.



THE above mill was patented by Charles Leavott, of Ill., Feb. 27th, 1855. This mill took the first premium at the Ohio State Fair, 1855, over all other mills; and during the fairs of the fall of 1855, the first premiums over many others, in the State Fairs of Ohio, New York, Tennessee, Michigan and Minnesota, also, at the County Fairs of the following Counties of Ohio and Indiana, viz: Guernsey, Crawford, Logan, Medina, Ashland, Wayne, Knox, Montgomery, Clark, Erie, Lorain, Richland, Plymouth district, Chester, Frederick. In Indiana, Tippecanoe, Jefferson, Wayne, Fayette, Shelby, Jennings, Warren and Fountain.

Farmers, Saw Mill owners, Livery Stable men and all others feeding stock of any kind are invited to examine the merits and superior advantages of the above mill.

The Young America will grind as much corn in the cob, shelled corn, oats, barley, and all other grains for stock as any mill of the same size and with much less draft.

What we claim is great strength, durability and simplicity, being so simple that a child can learn to grind with safety.

In the next we claim the small expense to renew the grinding parts of the mill, and the ease with which the grinders are put on the mill, at a cost of not over three dollars, which makes it superior and more economical than any other mill. The grinding parts of the above mill are made of the hardest of cast iron, as hard in fact as cast steel can be tempered. Each set will grind from 5,000 to 10,000 bushels of grain, with proper usage. Besides the set of grinders on the mill, an extra set will be sent with each mill sold, making it equal to two common mills. When found necessary to change the grinders, almost any one can do it in twenty minutes.

As a proof of the estimation in which the Young America is held in Ohio, we would state that, during the fall, winter and spring of 1855-56, 2500 were made and sold in Ohio, at Zanesville, by Douglas, Smith & Co., Hall & Allen of Mansfield, Eldridge & Fancener of Cincinnati, and at New Philadelphia.

At this time there is not less than 200 being sold every week in Ohio, at retail, besides those sold in other states east and west.

The above mill is being manufactured and can be furnished at wholesale and retail, from the Wisconsin Iron Works of A. J. Langworthy, on the water power in the City of Milwaukee. The mill is warranted perfect in all respects.

Dealers in agricultural implements and machines, of the State of Wisconsin, are requested to call and make arrangements for the sale of the above mills, to whom a liberal discount will be made on the retail price; also any others wishing to engage in a profitable business. Would call attention to good men who have teams in any part of the State, who would peddle the mills through the country. Four can be taken on a wagon at a time—liberal arrangements would be made with them.

The above mill will grind from 8 to 20 bushels of grain per hour, in accordance with the kind and condition of the grain.

Price of the Young America $55—ready to hitch to and warranted to grind as fast as any mill of the same size, when properly worked, and with less draft.

For further information address or see the undersigned, sole owner of the right to the State of Wisconsin.

W. T. JENNINGS & CO.,
Dealers in
FINE CLOTHING,
231 BROADWAY,
Second door above the Astor House, NEW YORK,

WOULD SUGGEST to the Trade, that they will be prepared for Spring sales with their usual extensive stock of the finer qualities of

READY MADE CLOTHING.

In reference to which they would suggest, that the facility with which their goods can be fitted, every garment being marked in lengths and breadths, the same size breast being varied to suit different proportions of the same measure, should give them the preference over any clothing, the sizes of which are indefinitely marked. The difficulty of really suiting patrons from that fact, it is presumed, has been very generally realized. In a word, strict attention is directed in a determination to render our garments equal in every respect to the best custom work. feb6d3mVO&CO

HEALTHY BREAD!
MADE WITH
JAS. PYLE'S DIETETIC SALERATUS.

THIS article is deprived of the caustic impurities, so well known to exist in all common Saleratus, thereby dealing destruction to thousands not aware of its injurious qualities. So destructive is it to the constitution of children, that where they and the parents have been regular consumers of Saleratus Bread, there is but little chance for recovery from infantile or contagious diseases. In this way thousands meet with premature Death—the sad reality of which is fearfully demonstrated, in the mortality among children, in the New England and other States, where warm bread and cake is so generally consumed.

JAS. PYLE'S DIETETIC SALERATUS is of vast importance to the public, and is rapidly coming into use. Being deprived of all caustic impurities, it is quite as harmless as flour. In point of economy it excels having powerful raising properties, and is altogether superior to Baking Soda. No intelligent lady will dispute this after trying it.

It is packed in pound packages, each bearing the name of James Pyle, without which it is not genuine. For sale by John Furlong & Co., C. A. Folsom, Chapin & Gregory, Milwaukee; Ethridge, Shoemaker & Co., Madison, E. H. Jones & Bro., Fond du Lac, Wis; A. Gross & Coag, Chicago. JAMES PYLE,

MEDICAL.

R. R. R.

THE MEDICAL TRINITY.

EACH of Radway's Three Remedies possess special curative powers over certain diseases; and when either the Ready Relief, Renovating Resolvent, or the Regulators, are used for the certain class of diseases they are specially designed for, the system undergoes a rapid transformation from its diseased condition to a healthy and happy state of existence.

RADWAY'S READY RELIEF.

This remedy is to be used externally, or taken internally, for all pains, aches and infirmities. In a few minutes it stops the most torturing pains, subdues all inflammations and cures the worst cases of *Rheumatism, Lumbago, Gout, Paralysis, Neuralgia, Tooth-ache, Burns, Sprains, Strains, &c.* It restores the *lame, infirm and crippled* to soundness and vigor. It is likewise a certain cure and preventive for *Fever and Ague, Scarlet Fever, Smallpox, Croup Hoarseness, Colds and Influenza.* Whenever you feel any unpleasant or painful symptoms, take a dose of Radway's Ready Relief, or apply it to the parts where the pain is located; in a short time you will enjoy ease and comfort.

Bear in mind, there is no pain so severe but that Radway's Ready Relief will stop, and no system so crippled with infirmities but that the R. R. R. Remedies will restore to sound and vigorous health.

RADWAY'S REGULATORS.

The discovery of these wonderful pills establishes a new era in purgatives, and a new principle in the science of medicine. In taking these pills no griping pains or sickness at stomach is experienced; they operate naturally, leaving the bowels, liver and other organs in a natural condition.

They insure those who take them a good appetite and a healthy digestion.

Each pill that is taken gives new life to the blood; they purify it, take from it all impure deposits and equalize its circulation.

One or two doses of Radway's Regulators will entirely remove all distressing symptoms of Dyspepsia, Jaundice, Nervousness, Indigestion, Costiveness, Liver Complaint, Billiousness, Melancholy, and will cure all organic diseases, either in man or woman. Ladies troubled with irregularities or weakening discharges, may rely upon a prompt cure and regular periods if Radway's Regulators are taken.

PICTURE OF HEALTH AND BEAUTY.

A few doses of Radway's Regulators will insure a clear, fair, pure and healthy skin and a rosy complexion. They give to those troubled with weak dull, yellow eyes, a clear and brilliant appearance. Radway's pills give a natural beauty to the face, eyes and head; and the use of the Ready Relief as a wash for the teeth and an aromatic for the breath, will change the most disgusting foul breath to sweetness, and the blackest tooth to Parian whiteness.

One to ten of Radway's Regulators is a dose; they never do injury, but always do good.

CONGESTIVE DISEASES, APOPLEXY, TERMINATION OF BLOOD TO THE HEAD.

Persons of full blooded plethoric habits are more subject to congestive diseases, headaches, rush of blood to the head, than those of a lean habit; bleeding in these cases is highly detrimental, nor does this practice lessen the danger; the difficulty is not caused by too much blood, but by its disturbed circulation, and the irregular action of the *heart.* Now a dose of Radway's Regulators will correct all these difficulties—they will *correct* the action of the heart, liver, and all other organs to a natural and regular action, and will immediately *equalize* the circulation of the blood. Mere purging in these cases will only aggravate the disease.

Radway's Regulators not only *regulate* the bowels, by which all diseased and injurious matter is purged from *the body*, but they control the whole system, and, *force*, each and every organ, the heart, brain, liver, nerves, bowels, skin, pancreas, bladder, kidneys, stomach, lungs, throat, blood, and every tissue in the whole organization, to a healthy and regular action. They infuse new life throughout the whole system; their action is not confined to any local part of the stomach, like common pills, but they search out diseased action wherever it may be hidden, and expel all diseased humors and deposits from the body. In a few hours after taking a dose of these life creating pills you feel refreshed and invigorated from head to foot. We have known the dispirited and melancholy take a dose of Radway's Regulators *just to feel good—they make one feel so happy.*

RADWAY'S RENOVATING RESOLVENT.

Cures Humors, Salt Rheum, Scrofula, Ulcers, Nodes, Tumors, Fever Sores, Skin Eruptions, Blotches, Bronchitis, Dyspepsia, Gout, Dropsy, Syphilis, Consumption, Apoplexy, &c.; and all constitutional and chronic diseases, either inherited by hereditary transmission, or inoculated by exposure or otherwise.

There is no remedy in the world that will work such miraculous cures in old diseases as Radway's Resolvent. It changes the whole human body—reproduces new and healthy blood.

☞ Bleeding from the lungs—Radway's Renovating Resolvent will, in a few minutes, check Hemorrhage from the lungs, or throat. In cases where the patient coughs up clots of blood or pus streaked with blood, Radway's Resolvent will soon remove the difficulty.

☞ Sarah Hammond, of 108 East Thirty-Second st. had a bad cough for two years, she coughed up sometimes half a pint of blood during the night. She was cured in seven days by the Relief and Resolvent.

☞ A sore leg of 21 years cured in three weeks, by Radway's Relief. Mr. T. H. Kilgo, a merchant of high standing in Dahlonega, Ga., says:—"That a gentleman who, for 21 years, had been afflicted with a sore leg, that resisted every kind of treatment, was effectually cured in three weeks by Radway's Ready Relief, Resolvent and Regulators."

GENERAL COMPLAINTS.

If you catch a sudden cold, get a sore throat, or become afflicted with influenza, a dose of Radway's Regulators, and an application of the Ready Relief, will free you from all pain and uneasiness. In a few minutes after the Relief is applied no soreness will trouble you. If afflicted with headache, either nervous or from foul stomach, Radway's Ready Relief, and a dose of Regulators, will remove all pain from the head, and restore health to the nervous and afflicted.

Radway's Ready Relief and Regulators always cures *Dyspepsia* in its most distressing forms, and nervousness with all its horrors.

☞ WHOOPING COUGH.—Thousands of cases of Whooping Cough have been cured in a few days by the Resolvent and Relief, and if the Whooping Cough is prevalent in the neighborhood, those who take half a teaspoonful of Ready Relief in a little water, once or twice per day, will never catch it. Radway's Relief destroys the infection of the "Whooping Cough."

☞ TOBACCO CHEWERS.—Those who have become reduced by the effect of tobacco, or the indulgence in spirituous liquors, who feel the horrors of incapacity, weakness, sterility, and the *infirmities* which a fast and intemperate, luxurious and lustful course of life inflicts upon its victims, will find relief from these horrors, and sure restoration to health, strength and vigor, by the use of Radway's Relief, Regulators and Resolvent.

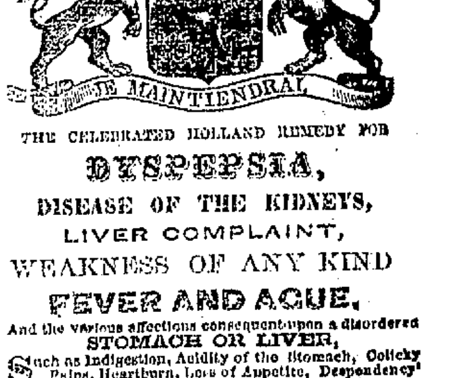
BOERHAVE'S
HOLLAND BITTERS



THE CELEBRATED HOLLAND REMEDY FOR
DYSPEPSIA,
DISEASE OF THE KIDNEYS,
LIVER COMPLAINT,
WEAKNESS OF ANY KIND
FEVER AND AGUE,
And the various affections consequent upon a disordered
STOMACH OR LIVER,

Such as Indigestion, Acidity of the Stomach, Colicky Pains, Heartburn, Loss of Appetite, Despondency, Costiveness, Blind and Bleeding Piles. In all Nervous, Rheumatic and Neuralgic Affections, it has in many instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on their strictly scientific principles, after the manner of the celebrated Holland Professor, Boerhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherland scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor in the system.

NOTICE.—Whoever expects to find in this a beverage will be disappointed; but to the sick, weak and low spirited, it will prove a grateful aromatic cordial, possessed of singular remedial properties.

CAUTION!

The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. Be not persuaded to buy anything else until you have given BOERHAVE'S HOLLAND BITTERS a fair trial. One bottle will convince you how infinitely superior it is to all these imitations.
